

QM1 & QM2

Electro-mechanical timeswitch & programmer

QM2 – two channel
programmer.
Independent control of
heating and hot water

QM1 – single channel
timeswitch – ideal for
combi-boilers

- Synchronous time controls with clock hands for ease of setting / viewing
- Captive tappets giving switching at 15 minute intervals
- Universal back-plate
- Volt-free contacts (QM1)
- QM2 suitable for fully pumped or gravity systems
- Timed / Off / Constant manual control
