

## Tower Controls

**SWITCH ON  
TO COMFORT**

### The combi solution: Digital room-thermostat – RSD and Digital programmable room-thermostat - RSP

- digital temperature control

- Easy 2-wire connection
- Set temperature in 0.5 °C steps – range 5 – 35°C
- Battery operated – 2 x AAA

- time and temperature control

- Easy 2-wire connection
- Eight week-day and weekend programmes
- Battery operated – 2 x AAA

- **Factory pre-set programmes (RSP)**
- **Digital display of actual temperature**
- **Energy efficient – direct boiler switching**
- **Provides internal frost protection**

The Tower Programmable Digital Room Thermostat types RSD & RSP are designed to replace an existing bi-metal room thermostat. They are designed to be simple to install and operate. The RSP has a factory pre-set programme for immediate operation.
