

Tower TPS25/80 commercial circulation pump

The Tower TPS25/80 commercial circulation pump is a reliable and efficient choice for heating systems, offering a powerful motor, durable construction, and easy installation in a compact package. With its high-quality components and excellent performance, the TPS25/80 is a dependable and long-lasting solution for all your heating system needs.

Product Name: Tower TPS25/80 Commercial Circulation Pump

Product Code: TPS25/80

Application: Heating Systems - Domestic and Commercial

Maximum Flow Rate: 6 cubic metres per hour

Rated Flow Rate: 3.2 cubic metres per hour

Maximum Head Rating: 8 metres

Power: 245 watts

Voltage: 230 volts

Rated Current: 1.1 amps

Port Threads: 1 1/2" BSP

Materials: Cast Iron, Plastic, Copper & Stainless Steel

Dimensions:

Port to Port: 180mm

Width: 150mm x Depth: 170mm

Faceplate to Centre of Pipework: 130mm

Package Dimensions: 420mm x 350mm x 205mm

Net Weight: 4.8kg

Gross Weight: 5.5kg (with fittings)

Features:

- Powerful 245 watt motor
- High-quality materials for durability and longevity
- Compact design for easy installation in a variety of heating systems
- Compatible with a range of pipework configurations
- Efficient and reliable operation at 1.1 amps and 230 volts
- Maximum flow rate of 6 cubic metres per hour
- Maximum head rating of 8 metres
- Suitable for both domestic and commercial applications
